ELEMENTARY VEHICLE DAY: Dudley Elementary students got a chance to view vehicles from different businesses on May 4 when several parked in the four-plex parking lot for them to look at and climb into. Elementary Vehicle Day was part of the Advocating for Business, Labor and Education (ABLE) program through Dawson Area Development. Coordinator Mary Gohl said the event was designed to teach young children about careers. Tim Strauser of Blase-Strauser Memorial Chapels & Monuments shows children the inside of a hearse.
