Quiz Bowl practice: Gothenburg High School's Academic Quiz Bowl team has been practicing since January. Team adviser Lori Long said anyone can join. Team members generally need quirky knowledge that they can pull from their brains quickly on a variety of subjects. In March, the team competed at the Educational Service Unit 10 Academic Quiz Bowl at the University of Nebraska where members tied for fifth place. The Swedes also hosted a quadrangular with Lexington, Cozad and Broken Bow and finished second. The team will participate in Southwest Conference Academic Quiz Bowl Friday in Broken Bow, an event that has been postponed twice because of wintry weather. A successful team needs all kinds of "smarts" from all academic areas, she said.
